

Exam Preparation Testimonials

"My score on the Series 7 exam was ten points higher than my average on the six practice exams I took through FIREsolutions (and nineteen points higher than the national average as reported on my "report card.") I attribute much of my success to the rigors of FIRE Solutions' training regimen.

Thank you. I look forward to the benefits of your tutelage on the Series 66 exam."

-Kevin (Richmond, VA)

"I passed with an 88%. I thought all the learning materials, especially the practice test, were very helpful."

-Les (Little Rock, Arkansas)

"I passed with a score of 80. My only comment is that fire solutions over prepared me."

-Harris (White Plains, NY)

"I passed the 7 with a score of 89. My averaged score on the simulation final was an 80. And my average for all the finals put together was also an 80. I found your finals to be much harder, especially the extra finals you sent via email. Your questions tended to be trickier and less straightforward, so when I took the actual exam I was incredibly prepared and was able to breeze through many of the questions. I spent about 4 hours total taking the test, an hour to spare on each section.

I'd recommend Fire Solutions to anyone who needs to study for the 7. The Executive summaries, and especially the practice tests, did a lot to prepare me for the actual exam. I didn't use any other courses; cram sessions, etc. in my studying."

-Justin (Portsmouth, NH)

"Roy, I followed your syllabus precisely. I was extremely well prepared for the exam, and it showed. I scored a 93 on the Series 7. Thank you so much!!!"
